**5.2 Change in the Applicable Law** If, after the date of this Contract, there is any change in the Applicable Law with respect to taxes and duties which increases or decreases the cost of the Services rendered by the Service Provider, then the remuneration and reimbursable expenses otherwise payable to the Service Provider under this Contract shall be increased or decreased accordingly by agreement between the Parties, and corresponding adjustments shall be made to the amounts referred to in Sub-Clauses 6.2 (a) or (b), as the case may be.

**5.3 Services and Facilities** The Employer shall make available to the Service Provider the Services and Facilities listed under Appendix F.

## **6. Payments to the Service Provider**

**6.1 Lump-Sum Remuneration** The Service Provider's remuneration shall not exceed the Contract Price and shall be a fixed lump-sum including all Subcontractors' costs, and all other costs incurred by the Service Provider in carrying out the Services described in Appendix A. 6.3.2 **If the SCC so specify**, the service provider shall be paid performance incentive compensation as set out in the Performance Incentive Compensation appendix.

**6.4 Terms and Conditions of Payment**

Payments will be made to the Service Provider according to the payment schedule **stated in the SCC**. **Unless otherwise stated in the SCC**, the advance payment (Advance for Mobilization, Materials and Supplies) shall be made against the provision by the Service Provider of a bank guarantee for the same amount, and shall be valid for the period **stated in the SCC**. Any other payment shall be made after the conditions **listed in the SCC** for such payment have been met, and the Service Provider have submitted an invoice to the Employer specifying the amount due.

If the Employer has delayed payments beyond fifteen (15) days after the due date stated in the SCC, interest shall be paid to the Service Provider for each day of delay at the rate stated in the SCC.

**6.6 Price Adjustment**

6.6.1 Prices shall be adjusted for fluctuations in the cost of inputs only if **provided for in the SCC**. If so provided, the amounts certified in each payment certificate, after deducting for Advance Payment, shall be adjusted by applying the respective price adjustment factor to the payment amounts due in each currency. A separate formula of the type indicated below applies to each Contract currency:

$$P_c = A_c + B_c \text{ Lmc/Loc} + C_c \text{ Imc/Ioc}$$

Where:

$P_c$  is the adjustment factor for the portion of the Contract Price payable in a specific currency “c”.

$A_c$ ,  $B_c$  and  $C_c$  are coefficients specified in the SCC, representing:  $A_c$  the nonadjustable portion;  $B_c$  the adjustable portion relative to labor costs and  $C_c$  the adjustable portion for other inputs, of the Contract Price payable in that specific currency “c”; and

$Lmc$  is the index prevailing at the first day of the month of the corresponding invoice date and  $Loc$  is the index prevailing 28 days before Bid opening for labor; both in the specific currency

“c”.

Imc is the index prevailing at the first day of the month of the corresponding invoice date and Ioc is the index prevailing 28 days before Bid opening for other inputs payable; both in the specific currency “c”.

If a price adjustment factor is applied to payments made in a currency other than the currency of the source of the index for a particular indexed input, a correction factor  $Z_o/Z_n$  will be applied to the respective component factor of pn for the formula of the relevant currency.  $Z_o$  is the number of units of currency of the country of the index, equivalent to one unit of the currency payment on the date of the base index, and  $Z_n$  is the corresponding number of such currency units on the date of the current index.

6.6.2 If the value of the index is changed after it has been used in a calculation, the calculation shall be corrected and an adjustment made in the next payment certificate. The index value shall be deemed to take account of all changes in cost due to fluctuations in costs.

## **Appendix A-Description of the Services**

### **1. Background:**

Bangladesh Computer Council (BCC), an organization of Information & Communication Technology Division, Ministry of Posts, Telecommunications and Information Technology has received financing from the World Bank towards the cost of the Leveraging ICT for Growth, Employment and Governance Project (LICT) (IDA credit no.: 5025-BD), and intends to apply part of the proceeds to perform IT Risk Assessment and obtain ISO/IEC 2700:2013, Information Security Management System (ISMS) certification for the operations at the National Data Center (NDC), located in Bangladesh Computer Council (BCC) premises.

The Government of Bangladesh is expanding the existing shared government datacenter located in Bangladesh Computer Council (BCC) on a priority basis, in order to meet the high demand from public sector agencies for hosting their systems and services in a more secure, reliable and efficient manner, and at minimal cost and complexity. Certain critical needs related to Data Center operations such as its expansion strategy, audit and disaster recovery have already been defined by BCC under the Leveraging ICT (LICT) for growth, employment and governance project. However, currently only the data center expansion strategy and audit have reached a mature state. The key areas of concern with respect to data center operations are IT governance, information security, IT service management, network optimization and disaster recovery. There is no benchmarking exercise conducted on the compensation structure for data center resources, ICT Operating Model: Process and Technology. To ensure effective Data Center operations, BCC needs to formalize, establish, review and monitor processes related to service management, security and continuity. To fulfill its mission, BCC has outlined a series of strategic initiatives with plans to enhance and expand operational, financial, and technical programs. To ensure BCC appropriately applies the best in class IT industry standards with its ongoing modernization efforts and seeks to implement ISO/IEC 27001, the best-known standard for an Information Security Management System (ISMS) and obtain ISO/IEC/IEC 27001:2013 certificate for the operations at the National Data Center (NDC).

### **2. Objective:**

The objective is to recruit a qualified firm to provide services to implement ISO/IEC 27001:2013 standards and attain globally recognized ISO/IEC 27001:2013 Information Security Management System (ISMS) Certification for the National Data Center (NDC) in order to support the implementation of relevant global best practice framework which will enhance security, improve performance, enable conformance, strengthen capacity, optimize operations, reinforce confidentiality, integrity and availability of information. BCC has determined that through the implementation of industry-accepted IT best practices and standards IT processes can be improved for National Data Center (NDC) and a governance model can be implemented that ensures ongoing security, stable infrastructure, incident and analysis management, Disaster Recovery (DR), and continuous operational improvements. The selected firm shall develop, improve, and implement new and existing policies and procedures to align with ISO/IEC 27001:2013 certification requirements.

The National Data Center (NDC) could achieve ISO/IEC 27001:2013 certification by the implementation of the standards and conformance frameworks to ensure that each process area is configured, follows, and continuously improves according to ISO/IEC 27001:2013. The purpose of this RFP is to solicit proposals from qualified bidders who have expertise in facilitating ISO/IEC 27001:2013 implementation and certification. Related activities are defined in the scope of work. The scope of the system can be enhanced as per requirements of Bangladesh Computer Council (BCC). Technical and commercial bids (to be submitted separately) are invited from bidders for the aforesaid job as per the terms and conditions mentioned hereunder. The selected Bidder has to provide services based on the latest ISO/IEC 27001 standard currently being ISO/IEC 27001:2013. Based on the contents of the RFP, the selected Bidder shall be required to independently arrive at approach and methodology, based on ISO/IEC 27001:2013 standards, best practices and guidelines, after taking into consideration the effort estimate for completion of the same and the resource and the equipment requirements. The approach and methodology is required to be approved by the Purchaser.

The Purchaser stipulates that the Consultant's selection under this RFP is on the understanding that this RFP contains only the principle provisions for the entire assignment and that delivery of the deliverables and the services in connection therewith are only part of the assignment. The selected bidder shall be required to undertake to perform all such tasks, render requisite services and make available such resources as may be required for the successful completion of the entire assignment at no additional cost to the Purchaser. The selected Bidder will be responsible for carrying out exercise as per the broad objectives as outlined below:

- ❖ To ensure that BCC obtains ISO/IEC 2700:2013 Certification for its NDC operations and maintains the same.
- ❖ The selected Bidder will ensure knowledge transfer to BCC at every stage of the project to enable BCC to carry out the work as specified in this RFP in future after completion of this assignment.
- ❖ The selected Bidder's appointment is task specific and would last till the Purchaser achieves the objective such as IT Risk Assessment, ISO/IEC 27001:2013 certification for NDC as per the scope of this RFP.
